**JOINTLY OFFER BUILDING MANAGEMENT SOLUTIONS AND
ENERGY EFFICIENCY CONSULTING SERVICES**

(17 August 2012, Hong Kong) - Technovator International Limited ("Technovator" HKEx: 1206), a leading provider of building energy management and intelligent building solutions services, announced that its subsidiary Distech Controls entered a strategic partnership with Samsung Techwin, a global leader in energy and safety solutions, to jointly offer building management solutions and energy efficiency consulting services.

Under the terms of the agreement, Samsung Techwin will leverage Distech Controls' leading-edge technology, based on open standards, to provide a complete, fully integrated building management solution to its customers. Distech Controls' HVAC (heating, ventilation and air conditioning) control products are based on a robust common hardware platform and share the same programming toolset, providing increased efficiency and options for system design, installation, service, and maintenance.

Technovator's management is very pleased to partner with Samsung Techwin in providing building energy efficiency consulting and solutions, We look forward to continued collaboration with companies that shares our vision.

"Distech Controls' line of feature-rich HVAC control products was selected based on our stringent requirements for quality and performance" added Mr. HS Park, General Manager of Quality Assurance Team of Samsung Techwin "This partnership contributes to the mutual promotion of specific technical aspects and support our commitment to technologies that promote energy efficiency."
