## PROFIT ALERT

This announcement is published by Technovator International Limited (the "**Company**", together with its subsidiaries, the "**Group**") pursuant to Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board of directors of the Company (the "**Board**") would like to inform the shareholders of the Company (the "**Shareholders**") and potential investors that, based on the preliminary assessment on the unaudited management accounts of the Group for the six months ended 30 June 2026, the Group is expected to record a loss ranging from approximately RMB255.0 million to RMB265.0 million for the six months ended 30 June 2026, as compared with the loss of approximately RMB7.7 million for the six months ended 30 June 2025. The increase in loss for the six months ended 30 June 2026 was mainly due to the following factors: 1) insufficient effective demand in the target markets, caused by the slowdown in macroeconomic growth and cyclical adjustments within the industry, resulting in a significant contraction in investment in non-essential and upgrading construction projects. This led to a significant decline in the Group's revenue, with revenue from contractual energy management projects also suffering a substantial impact; 2) intensifying market competition, which squeezed our project margin and put pressure on the Group's profitability. Furthermore, as the Group's traditional high-margin business, contractual energy management projects saw a reduction in revenue, which directly led to a decline in total gross profit. Meanwhile, fixed expenditures such as project labor costs were not reduced proportionally, further eroding the gross profit. Collectively, these resulted in a substantial decline in the gross profit margin for the period; 3) higher provisions for impairment of certain assets made by the Group after taking full consideration of the changes in the industry environment and future operating forecasts, which further widened the net loss for the period.
